Shortland Local Centre Upgrades

City of Newcastle

In June 2020, we asked the Shortland community to tell us what they most value about the area and what they would like to see more of. Here are some of the things you told us...

You said

The local businesses are a major asset to the community. The friendly, community feel of the local centre is highly valued and is seen a convenient hub for essential services and shops.

We learned

You want us to prioritise improvements to the look and feel of the area. Pedestrian safety and access, and reducing antisocial behaviour are also priorities. Availability of parking was also mentioned as a key concern.

We listened

The Local Centre will be upgraded to improve safety, connectivity, aesthetics and landscaping and enhance the community feel of the area. Works will start in 2020/21 Financial year.
