

- 1 Grass lawn Mound**
Continuing the sand dune theme the grass mounds provide a social area buffer between the play area and existing cricket pitch.
- 2 Double Flying Fox**
With large ropes as swing the dancing snake provide both social and play value with multi-use component
- 3 Dancing Snake Swing**
With large ropes as swing the dancing snake provide both social and play value with multi-use component
- 4 Climbing Nets & Play Tower**
Mixture of horizontal and vertical climbing nets provides play hang out area
- 5 Social / Refuge areas**
Situated under the large gantries the social areas face both the skate a play areas. They provide refuge and a buffer from the different areas. Include in a BBQ area as well as ample seating.
- 6 Junior Play Area**
The central space is under shelter to provide shade during the heat of the day and for parents to watch over younger children. It includes Play tower, slides, sand play units
- 7 Social Spinner**
- 8 Mini Ramp**
4ft mini ramp is a classic skate feature that provides users with endless hours of fun for users of all abilities
- 9 Skate Plaza.**
Taking inspiration from the docks, the skate plaza incorporates long lines, steel sculptural features and the remnants of gantry infrastructure to create a unique skate experience

NOTES

The concept plan incorporates the history of the area and Stockton's industrial context and uses these as the drivers of form and function for the space. The forms used reference the areas industrial history and blend these with the more organic forms of Stockton's coastal context
