

Free flood alert service

Much of Newcastle is affected by flooding, so we've developed a free alert system to warn residents. If a flood is predicted near your place, you'll receive either a minor, moderate or major warning.

Just register to receive alerts by text, email or automated landline messaging at newcastle.nsw.gov.au/floodalert

25 per cent off on-street parking through EasyPark

We've slashed the hourly cost of on-street parking in the city by 25 per cent for users of our pay-by-phone parking app, EasyPark.

The app allows drivers to be refunded for paid time not needed and remotely top-up payments after receiving SMS notifications 15 minutes before their parking session expires.
