

When to use this form:

- The tree or shrub is greater than 5 metres in height.
- The tree or shrub is located on privately owned land.
- Consent has been obtained from the property owner.

Please Note:

- The pruning specification must be prepared in accordance with Australian Standard AS4373-2007 by an AQF Level 3 Arborist.
- The work must be carried out by a minimum AQF Level 2 Arborist in accordance with the prepared specification.
- If the tree or shrub is (or forms part of) a Heritage Item, Aboriginal Item or place of Aboriginal Significance, you must submit your completed Tree Pruning Specification to the City of Newcastle along with a *Heritage Minor Works* form.
- If the tree or shrub is not associated with a Heritage or Aboriginal item, you do not need to submit your completed Tree Pruning Specification to the City of Newcastle, however the property owner must retain a copy for 2 years.

PART A: PROPERTY OWNER AND SITE DETAILS

Lot(s):

Section:

Deposited or Strata Plan:

PART B: ARBORIST DETAILS

3. The person competent in arboriculture assessment

Arborist Qualification
Minimum AQF Level 3 in arboriculture and relevant experience in accordance with Part A Section 6.0 of the Manual

Name/Business Name:

Qualification & Cert No:

Address:

Phone:

Email:

As the competent person I have:

1. Carried out a thorough inspection of tree/s (insert number of trees) of species (name)
2. Determined the need for pruning.
3. Specified the current and subsequent pruning requirements.
4. Determined that the specified pruning will not adversely affect the tree.
5. Considered all applicable planning, heritage and protected species legislation in the context of the proposed pruning.

3. (...continued)

6. I have assessed each tree for hollows or other likely habitat, and either: (tick one box)
- found no evidence to warrant further assessment, or
 - arranged for further assessment by an ecologist or wildlife specialist prior to pruning

I recommend the specified pruning be carried out by a person suitably qualified and experienced in arboriculture with the minimum AQF Level 2 in Arboriculture, and that the pruning be undertaken only in accordance with this specification.

Lopping, topping, wound painting and flush cutting shall not be undertaken and climbing spikes shall not be used except in order to assist in the aerial rescue of an injured person.

PART C: PRUNING CLASSES AND SPECIFICATION DETAILS

4. Pruning Classes and Specification Details
