

Harbour to Cathedral Corridor

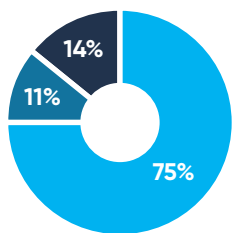

We're looking to create a landmark destination for Newcastle that will protect and enhance views from the Harbour through to Christ Church Cathedral. The concept proposes to link Christ Church Cathedral to the Harbour via a grand staircase.

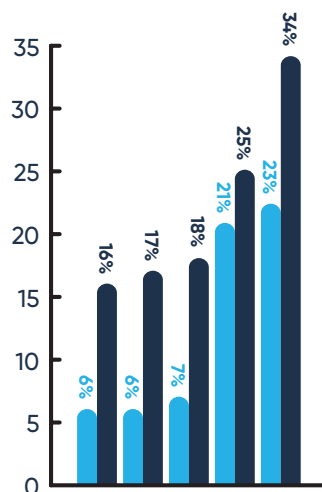

We asked the community what they liked about the vision, and to share any issues they'd like to see addressed in the Harbour to Cathedral concept. Engagement activities were open from Tuesday 18 May to Friday 11 June 2021 and sought to:

- Build awareness of the Harbour to Cathedral concept
- Gauge community support for the concept
