

National Park Plan of Management

Engagement Snapshot

We asked the community to help us understand what is valued about National Park and what needs improving.

Engagement activities

Onsite information session

45 attendees

Survey

354 completed, online and hardcopy

Key stakeholder workshop x 2

Attended by **15** people from various community and sporting groups

Values mapping

Received **290** comments on our online interactive map

These are some of the things you told us...

What's most important:

- Greenspace
- Path networks
- Toilets
- Netball courts (multi-use)

What you would like to see changed:

- Address traffic issues – lack of parking, safety and pedestrian issues.
- Consolidate Netball Courts
- Create an attractive entrance to the park
- Lighting for security and night sports
- Improve toilet facilities

City of
Newcastle

What would you like to see more of in the future:

- Areas for passive use
- Parking
- Trees
- Pop up and park activation activities
- Exercise equipment
- Improve child play spaces
- Shade
- Tables, benches and picnic facilities
- Improve toilet accessibility and facilities
- Improve connectivity walking and bicycle paths

.....

Quotes:

"Need toilets that are open somewhere in the park for daytime use"

"Parking is/will always be an issue given the number of users at National Park on weekends"

"The current frontage is very unattractive."

"More trees and shrubs to create an urban forest feel"

"The sporting fields take up a large percentage of the available area but are only used during the sporting season. More facilities are needed for passive recreation"

Next steps

We're using community feedback to help develop an updated Plan of Management for National Park.

There will be further opportunities for community input as the project progresses.
