NON-PERFORATED STEEL SHEET CEILING, FREE OF OPEN JOINS, CRACKS AND CREVICES, TO AS 4674.2004

NON-PERFORATED, IMPERVIOUS & SEALED PRE-FORMED PANEL CEILING, FREE OF OPEN JOINS, CRACKS AND CREVICES, TO AS 4674.2004

NON-PERFORATED, IMPERVIOUS & SEALED PAINTED PLASTER CEILING, FREE OF OPEN JOINS, CRACKS AND CREVICES, TO AS 4674.2004

NOTES

- DO NOT SCALE DRAWINGS. WRITTEN DIMENSIONS GOVERN. IF IN DOUBT OBTAIN WRITTEN ADVICE FROM PREVALENT OR WHERE APPLICABLE VIA THE PRINCIPAL'S REPRESENTATIVE.
- ALL DIMENSIONS ARE MINIMUM SETTING OUT REQUIREMENTS.
- ALL DIMENSIONS SHOULD BE VERIFIED ON SITE PRIOR TO PROCEEDING WITH THE WORKS. NOTIFY THE PRINCIPAL'S REPRESENTATIVE IN WRITING OF ANY DISCREPANCIES.
- INSTALLATION OF SYSTEMS AND PROPRIETARY PRODUCTS TO BE STRICTLY IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS.
- ALL WORK TO COMPLY WITH THE NATIONAL CONSTRUCTION CODE INCLUDING RELEVANT AUSTRALIAN STANDARDS AND REQUIREMENTS OF THE NATIONAL CONSTRUCTION CODE AND AUSTRALIAN WORK HEALTH AND SAFETY LEGISLATION.
- DESIGN DRAWINGS ARE BASED ON SURVEY INFORMATION. PRIOR TO DETAILED DESIGN AND CONSTRUCTION, THE CONTRACTOR IS TO UNDERTAKE A FULL SURVEY TO VERIFY ALL DIMENSIONS AND CONFIRM LOCATION OF EXISTING STRUCTURE, SERVICES, BUILDING FABRIC AND SITE FEATURES.
20000L WATER TANK, GRAVITY FED FROM EXISTING DOWNPIPE.
WATER TO BE USED FOR GARDEN/OUTDOOR AREAS.

NOTES:

• DO NOT SCALE FROM DRAWINGS. WRITTEN DIMENSIONS GOVERN. IF IN DOUBT OBTAIN WRITTEN ADVICE FROM PREVALENT OR WHERE APPLICABLE VIA THE PRINCIPAL'S REPRESENTATIVE.

• ALL DIMENSIONS ARE IN MILLIMETRES UNLESS OTHERWISE STATED.

• ALL DIMENSIONS ARE MINIMUM SETTING OUT REQUIREMENTS.

• ALL DIMENSIONS SHOULD BE VERIFIED ON SITE PRIOR TO PROCEEDING WITH THE WORKS. NOTIFY THE PRINCIPALS REPRESENTATIVE IN WRITING OF ANY DISCREPANCIES.

• ALL ARCHITECTURAL DRAWINGS MUST BE READ IN CONJUNCTION WITH RELEVANT CONTRACTS, ARCHITECTURAL REPORTS, SCHEDULES AND SPECIFICATIONS. NOTIFY THE PRINCIPALS REPRESENTATIVE OF ANY DISCREPANCIES OR WHERE THE CONTRACTOR DEEMS THE DRAWINGS TO BE INCONGRUENT WITH THE CONTRACTUAL DOCUMENTATION.

• INSTALLATION OF SYSTEMS AND PROPRIETARY PRODUCTS TO BE STRICTLY IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS.

• ALL WORK TO COMPLY WITH THE NATIONAL CONSTRUCTION CODE INCLUDING RELEVANT AUSTRALIAN STANDARDS AND REQUIREMENTS OF THE NATIONAL CONSTRUCTION CODE AND AUSTRALIAN WORK HEALTH AND SAFETY LEGISLATION.

• DESIGN DRAWINGS ARE BASED ON SURVEY INFORMATION. PRIOR TO DETAILED DESIGN AND CONSTRUCTION, THE CONTRACTOR IS TO UNDERTAKE A FULL SURVEY TO VERIFY ALL DIMENSIONS AND CONFIRM LOCATION OF EXISTING STRUCTURE, SERVICES, BUILDING FABRIC AND SITE FEATURES.
THE PROPOSED DEVELOPMENT AT 18 MEREWETHER STREET, MEREWETHER INVOLVES THE
REFURBISHMENT OF THE EXISTING DWELLING ON LOT 10 DP 111239 AND THE CONSTRUCTION OF A NEW
BUILDING ON LOT 4 DP 218920.

THE PROPOSED DEVELOPMENT IS LOCATED WITHIN A FLOOD STORAGE AREA. NEWCASTLE CITY
COUNCIL ALLOWS DEVELOPMENT WITHIN A FLOOD STORAGE AREA PROVIDED A MAXIMUM OF
20% OF THE FLOOD STORAGE AREA IS Filled. THE PROPOSED DEVELOPMENT IS LOCATED WITHIN A
FLOOD STORAGE AREA. NEWCASTLE CITY COUNCIL ALLOWS DEVELOPMENT WITHIN A FLOOD
STORAGE AREA PROVIDED A MAXIMUM 20% OF FILLING OF THE FLOOD STORAGE AND/OR
COMPENSATORY STORAGE IS PROVIDED.

THE PROPOSED 1% AEP FLOOD LEVEL IS 5.8m AHD (PROVIDED BY NCC). AS THE EXISTING BUILDING
IS SET AT 5.58m AHD, IT IS PROPOSED TO DESIGN THE PROPOSED EXTENSION AT THE SAME FLOOD
LEVEL TO ENSURE WATER RESISTANT CONSTRUCTION UP TO THIS LEVEL.

FURTHERMORE, AN UNDERGROUND COMPENSATORY STORAGE TANK WILL BE PROVIDED TO ENSURE
COUNCILS MAXIMUM 20% FILLING OCCURS.

TOTAL VOLUME CURRENTLY STORED ON LOT 4 DP 218920 DURING 1% AEP EVENT = 245 m³
ALLOWABLE FILLING OF 20% = 49 m³
TOTAL VOLUME REQUIRED TO ALLOW WATER STORAGE ON LOT 4 DP 218920 = 196 m³
TOTAL VOLUME AVAILABLE ABOVE DESIGN SURFACE LEVELS TO 5.8m AHD = 143 m³
REQUIRED BELOW GROUND COMPENSATORY STORAGE = 53 m³
Title
Fire Safety Schedule

Date
Sunday, 15 December 2019

Project
18-20 Merewether Street

Address
18-20 Merewether Street, Merewether, 2291 NSW, Australia
Lot 10, Sec 3, DP 111239
Lot 4, DP 218920
1 Fire Safety Measures

1.1 Existing (retained)

Brick, metal and concrete warehouse.

- Concrete floor – slab on ground.
- Metal structure (portal frame).
- Double brick façade. Metal cladding to side walls.
- Ceiling in corrugated metal & translucent polycarbonate with insulation.

1.2 Proposed

Concrete flooring and walls to be skinned in fire resistant materials, relevant to food premises as specified in as4674-2004 and the NCC 2012.

Clean escape access to be provided to main customer entry. Route to be kept clear at all times. Exit signs to be placed in location according to code, by fire safety engineer.

Fire extinguisher to be installed in kitchen and brewery area.

Smoke detectors in dining and ancillary rooms.

ITEM-29 Attachment B: Draft Schedule of Conditions
DRAFT SCHEDULE OF CONDITIONS

Application No: DA2019/01351

Land: Lot 10 Sec 3 DP 111239
      Lot 4 DP 218920

Property Address: 18 Merewether Street Merewether NSW  2291
                   20 Merewether Street Merewether NSW  2291

Proposed Development: Artisan food and drink premises - alterations and additions and change of use

SCHEDULE 1

APPROVED DOCUMENTATION

1. The development is to be implemented in accordance with the plans and supporting documents set out in the following table except where modified by any conditions of this consent.

In the event of any inconsistency between conditions of this development consent and the plans/supporting documents referred to above, the conditions of this development consent prevail.

GENERAL TERMS OF APPROVAL

2. The General Terms of Approval from state authorities must be complied with prior to, during, and at the completion of the development.
The General Terms of Approval are:

A copy of the General Terms of Approval is attached to this determination notice at Schedule 3.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF A CONSTRUCTION CERTIFICATE

3. A total monetary contribution of $5000 is to be paid to the City of Newcastle, pursuant to Section 7.12 of the Environmental Planning and Assessment Act 1979, such contribution to be payable prior to the issue of a Construction Certificate in respect of the proposed development.

Note:

i) This condition is imposed in accordance with the provisions of the City of Newcastle's Section 7.12 Newcastle Local Infrastructure Contributions Plan 2019.

ii) The City of Newcastle’s Section 7.12 Newcastle Local Infrastructure Contributions Plan 2019 permits deferred or periodic payment of levies in certain circumstances. A formal modification of this condition will be required to enter into a deferred or periodic payment arrangement.

iii) The amount of contribution payable under this condition has been calculated on the basis of the current rate as at the date of consent and is based on the most recent quarterly Consumer Price Index (CPI) release made available by the Australian Bureau of Statistics (ABS). The CPI index rate is expected to rise at regular intervals and therefore the actual contribution payable is indexed and recalculated at the CPI rate applicable on the day of payment.

CPI quarterly figures are released by the ABS on a date after the indexation quarter and, as a guide, these approximate dates are as follows:

<table>
<thead>
<tr>
<th>Indexation quarters</th>
<th>Approximate release date</th>

</tr>
<tr>
<td>December</td>
<td>Late January</td>
</tr>
<tr>
<td>March</td>
<td>Late April</td>
</tr>
<tr>
<td>June</td>
<td>Late July</td>
</tr>
</tbody>
</table>

Any party intending to act on this consent should contact City of Newcastle’s Customer Enquiry Centre for determination of the indexed amount of contribution on the date of payment.

4. On-site parking accommodation is to be provided for a minimum of 6 vehicles, 3 motorbikes, and 21 bicycles and such be set out generally in accordance with the minimum parking layout standards indicated in Element 7.03 ‘Traffic, Parking and Access’ of Council’s adopted Newcastle Development Control Plan 2012. Full details are to be included in documentation for a Construction Certificate application.

5. The small car space for staff parking (No. 2) and corresponding driveway width parallel to the space is to be removed i.e. between the western roller door and the western property boundary. Full details are to be included in documentation for a Construction Certificate application.

6. Wheel stops are to be installed at the 4 x angle parking spaces to prevent vehicles overrunning into the proposed addition. Full details are to be included in documentation for a Construction Certificate application.
7. Roof water from the proposed new work is to be directed to the proposed water tank with a minimum capacity of 20,000-litres and being reticulated to any new toilet cisterns and cold water washing machine taps, with a mains water top up being installed to maintain between 10% and 15% of the tank capacity. Alternatively, an electronically activated mechanical valve device is to be installed to switch any new toilet cisterns and laundry taps to mains water when the tank falls below 10% capacity. The water tank and plumbing is to be designed in accordance with the Plumbing Code of Australia (National Construction Code Volume 3). Full details are to be included in documentation for a Construction Certificate application. The floor level of all proposed buildings or building additions is to be verified on plans for a Construction Certificate application to be 5.60m Australian Height Datum.

8. The whole of the proposed structure below known flood level (6.30m Australian Height Datum) is to be constructed in materials and finishes that are resistant to damage from floodwaters/tidal waters. Any new machinery or equipment, electrical circuitry or fitting, storage unit or similar items likely to be damaged by floodwaters/tidal waters are to be installed above the said height, or alternatively be of materials and functional capability resistant to the effects of floodwaters/tidal waters. Details are to be included in documentation for a Construction Certificate application.

9. A flood emergency response plan is to be prepared by a professional engineer, who is experienced in flood management, and the plan is to be put in place prior to occupation of the site for the intended use. The plan is to include an education and awareness component for the workforce, detailed evacuation procedures to interface with the Bureau of Meteorology’s flood warning system and the local State Emergency Services plan and provisions for any third parties likely to be involved.

A flood emergency response plan is to describe the following components:

a) Likely flood behaviour
b) Flood warning systems
c) Education awareness program
d) Evacuation and evasion procedures
e) Evacuation routes and flood refuges and
f) Flood preparedness and awareness procedures for residents and visitors

Considerations are to include the full range of flood risks, the proposed use of the site, site access constraints and local area evacuation routes to high ground. The plan is to be aimed at self-directed evacuation or evasion to minimise the draw on limited State Emergency Services resources. Details are to be included in documentation for a Construction Certificate application.

10. On-site flood refuge is to be provided in the development. The minimum on-site refuge level in the building is the level of the Probable Maximum Flood event (reduced level 6.60m Australian Height Datum). The design and/or suitability of the refuge is to be structurally certified by a professional engineer, ensuring that the building is able to withstand the hydraulic loading due to flooding from the Probable Maximum Flood (Flood Level reduced level 6.60m Australian Height Datum, Maximum Flow Velocity of floodwaters 0.30m/s). Full details are to be included in documentation for a Construction Certificate application.

11. The design and construction of the proposed development is to be in accordance with the relevant requirements of Australian Standard 4674:2004 - Design, Construction and Fit-Out of Food Premises. Full details are to be included in the documentation for
12. The Developer designing and constructing the following works in connection with the proposed development within the Merewether Street Service Road public road reserve, adjacent to the site, at no cost to Council and in accordance with Council's guidelines and design specifications:

   a) New 1.2m wide concrete pedestrian footpath along the frontage of 18 - 20 Merewether Street as per Council's Standard Drawing A1401.

   b) Full reconstruction of widened driveway (approximately 26m) as per Council's Standard Drawing A1300

   c) Partial removal of existing driveway crossover and reinstatement of kerb and turfed verge between the western roller door and western property boundary

   d) New stormwater pipe connection to the street kerb

   Engineering design plans and specifications for the works being undertaken within the public road reserve are required to be prepared by a suitably qualified practising civil engineer with experience and competence in the related field and submitted to Council for approval pursuant to Section 138 of the Roads Act 1993 (NSW). The consent must be obtained, or other satisfactory arrangements confirmed in writing from Council, before the issue of a Construction Certificate.

13. A 3m acoustic barrier is to be installed in accordance with the Operational Noise Assessment prepared by RCA Australia dated 19 February 2020. Full details are to be included in documentation for a Construction Certificate application.

14. Facilities are to be provided in a screened location within the premises for the storage of garbage, discarded or returnable packaging or other forms of trade wastes and arrangements are to be made for regular removal and disposal of same. The required garbage facility is to be suitable for the accommodation of City of Newcastle approved wheel type bins or bulk waste containers. Full details are to be included in documentation for a Construction Certificate application.

15. The car parking and vehicular access is to be designed to comply with the following:

   a) AS/NZS 2890.1:2004 - Parking facilities - Off-street car parking
   b) AS 2890.3:2015 - Parking facilities - Bicycle parking
   c) AS/NZS 2890.6:2009 - Parking facilities - Off-street parking for people with disabilities.
   d) A bollard is to be installed in the shared space of disabled parking in accordance with AS/NZS 2890.6-2009: Off-street parking for people with disabilities.

   Full details are to be included in documentation for a Construction Certificate application.

16. All proposed driveways, parking bays, loading bays and vehicular turning areas are to be constructed with a basecourse of a depth to suit design traffic and be sealed with either bitumen seal, asphaltic concrete, concrete or interlocking pavers. Details are to be included in documentation for a Construction Certificate application.

17. Kerbing or dwarf walls having a minimum height of 100mm are to be constructed along the edge of all garden or lawn areas adjacent to driveways and parking bays, sufficient to discourage the encroachment of vehicles thereon. Details are to be included in documentation for a Construction Certificate application.

18. All stormwater runoff from the proposed development being managed in accordance
with the requirements of Element 7.06 ‘Stormwater’ of Newcastle Development Control Plan 2012, the associated Technical Manual and the latest issue of AS 3500.3 as applicable, as indicated on the stormwater management concept plan prepared by DRB Consulting Engineers (Drg. No. 200369/CIV01/RevA, dated 15 April 2020). Full details are to be included in documentation for a Construction Certificate application.

19. All new impervious surfaces, including driveways and paved areas are to be drained to the nominated discharge controls. Details are to be included in documentation for a Construction Certificate application.

20. All proposed planting and landscape elements indicated on the submitted landscape concept plan or otherwise required by the conditions of this consent are to be detailed on a comprehensive landscape plan and specification. The plan and specification are to be prepared in accordance with the provisions of Newcastle Development Control Plan 2012 and is to include details of the following:

a) cross sections through the site
b) proposed contours or spot levels
c) botanical names
d) quantities and container size of all proposed trees
e) shrubs and ground cover
f) details of proposed soil preparation
g) mulching and staking
h) treatment of external surfaces and retaining walls where proposed
i) drainage, location of taps and
j) maintenance periods.

The plan and specification are to be prepared by a qualified landscape designer and be included in documentation for a Construction Certificate application.

21. The applicant is to comply with all requirements of the Hunter Water Corporation regarding the connection of water supply and sewerage services, including the payment of any required cash contribution towards necessary amplification of service mains in the locality as a result of the increased intensity of land use proposed. A copy of the Corporation’s compliance certificate (refer Section 50 Hunter Water Act 1991) is to be included in documentation for a Construction Certificate application.

22. A commercial vehicular crossing is to be constructed across the road reserve, in accordance with the following criteria:

a) Constructed in accordance with City of Newcastle’s A1300 - Driveway Crossings Standard Design Details.

b) The driveway crossing, within the road reserve, is to be a maximum of 26.0m wide.

c) Letterboxes, landscaping and any other obstructions to visibility are to be kept clear of or limited in height to 1.2m, in the 2.0m by 2.5m splay within the property boundary, each side of the driveway entrance.

d) The proposed driveway is to be a minimum of 3.0m clear of the trunk of any
tree within the road reserve.

e) The proposed driveway is to be a minimum of 750mm clear of the centre of any pole or obstruction within the road reserve and 1.0m clear of any drainage pit.

These works are not approved until consent under Section 138 of the Roads Act 1993 has been granted by the City of Newcastle.

23. A separate application is to be lodged and consent obtained from the City of Newcastle for all works within the road reserve pursuant to Section 138 of the Roads Act 1993. The consent is to be obtained, or other satisfactory arrangements confirmed in writing from the City of Newcastle, before the issue of a Construction Certificate.

24. Lighting is to be provided to all entrances and exits of the premises and is to be designed, positioned, and installed, including appropriate shielding and orientation of the lighting fixture, as to not give rise to obtrusive light, interfere with traffic safety or detract from the amenity of surrounding properties. All lighting must comply with AS 1158 - Lighting for Roads and Public Spaces and AS 4282 - Control of Obtrusive Effects of Outdoor Lighting. Full details are to be included in documentation for a Construction Certificate application.

CONDITIONS TO BE SATISFIED PRIOR TO THE COMMENCEMENT OF WORK AND DURING THE CONSTRUCTION PHASE

25. Certification is to be prepared by a Registered Surveyor and submitted to the Principal Certifier at the stages of construction indicated:

a) On completion of ground floor construction, confirming that the floor levels are in accordance with the approved levels.

26. Any excavated material to be removed from the site is to be assessed and classified in accordance with the NSW Environment Protection Authority's ‘Waste Classification Guidelines Part 1: Classifying Waste’ and be transported and disposed of in accordance with the provisions of the Protection Of The Environment Operations Act 1997 and the Protection Of The Environment (Waste) Regulation 2014.

27. Any fill material imported into the site is to be Virgin Excavated Natural Material or material subject to a Resource Recovery Order that is permitted to be used as a fill material under the conditions of the associated Resource Recovery Exemption, in accordance with the provisions of the Protection of the Environment Operations Act 1997 and the Protection of the Environment (Waste) Regulation 2014.

28. Toilet facilities are to be available or provided at the work site before works begin and be maintained until the works are completed, at a ratio of one toilet plus one additional toilet for every 20 persons employed at the site.

Each toilet is to:

a) Be a standard flushing toilet connected to a public sewer, or

b) Have an on-site effluent disposal system approved under the Local Government Act 1993, or

c) Be a temporary chemical closet approved under the Local Government Act 1993.

29. Building demolition is to be planned and carried out in accordance with Australian Standard 2601:2001 - The Demolition of Structures.

30. A Hazardous Substances Management Plan is to be prepared by a competent person
for the building(s) or parts of the building(s) proposed to be demolished in accordance with *Australian Standard 2601:2001 - The Demolition of Structures*. A copy of the Hazardous Substances Management Plan is to be provided to the City of Newcastle and to the demolisher prior to commencement of work.

31. Demolition works are to be undertaken in accordance with *Australian Standard 2601:2001 - The Demolition of Structures* and the following requirements:

   a) Demolition works are to be conducted in accordance with the submitted Hazardous Substances Management Plan and a copy of the Hazardous Substances Management Plan is to be kept on site for the duration of the proposed development;

   b) The removal, handling and disposal of any asbestos material is to be undertaken only by an asbestos removal contractor who holds the required class of Asbestos Licence, issued by SafeWork NSW;

   c) A copy of all waste disposal receipts are to be kept on site for the duration of the proposed development and made available to authorised City of Newcastle officers upon request;

   d) Seven working days' notice in writing is to be given to the City of Newcastle and the owners/occupiers of neighbouring premises prior to the commencement of any demolition work. Such written notice is to include the date demolition will commence and details of the name, address, contact telephone number(s) and licence details (type of licences held and licence numbers) of any asbestos removal contractor and demolition contractor. Notification to owners/occupiers of neighbouring premises is also to include City of Newcastle's contact telephone number (4974 2000) and the SafeWork NSW telephone number (4921 2900); and

   e) On sites where asbestos materials are to be removed, a standard commercially manufactured sign containing the words ‘DANGER ASBESTOS REMOVAL IN PROGRESS’ measuring not less than 400mm x 300mm is to be erected in a prominent position during asbestos removal works.

32. The demolisher is to ensure that all services (ie water, telecommunications, gas, electricity, sewerage etc), are disconnected in accordance with the relevant authority’s requirements prior to demolition.

33. Any waste containers used in association with the proposed demolition are to be located on the site where possible.

   Note: Where this is not feasible, an application is to be made for the City of Newcastle’s approval to position the container on the adjacent public road in accordance with City of Newcastle’s adopted Building Waste Container Policy.

34. All demolition material incapable of being re-used in future redevelopment of the site is to be removed from the site and the site being cleared and levelled.

   Note: Where reusable building materials are to be stored on site for use in future building works, such materials are to be neatly stacked at least 150 mm above the ground.

35. The demolisher is to ensure that all demolition material is kept clear of the public footway and carriageway as well as adjoining premises.

36. Waste management is to be implemented during the construction phase:

   a) A waste container of at least one cubic metre capacity is to be provided, maintained and regularly serviced from the commencement of operations until
the completion of the building, for the reception and storage of waste generated by the construction of the building and associated waste;

b) The waste container is to be, at minimum, constructed with a 'star' picket (corners) and weed control mat (sides), or equivalent. The matting is to be securely tied to the pickets;

c) Provision is to be made to prevent windblown rubbish leaving the site; and

d) Footpaths, road reserves and public reserves are to be maintained clear of rubbish, building materials and all other items.

Note: Fines may be issued for pollution/littering offences under the Protection of the Environment Operations Act 1997.

37. A rigid and durable sign is to be erected on any site on which building work, subdivision work or demolition work is being carried out, before the commencement of the work:

a) showing the name, address and telephone number of the Principal Certifier for building work and subdivision work, and

b) showing the name, address and telephone number of the Principal Contractor for any building work and also including a telephone number on which the Principal Contractor may be contacted at any time for business purposes, and

c) stating that unauthorised entry to the work site is prohibited, and

d) being erected in a prominent position that can be read easily by anyone in any public road or other public place adjacent to the site.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out.

38. All excavations and backfilling are to be executed safely and excavations are to be properly guarded and protected to prevent them from being dangerous to life and property.

39. All building materials, plant and equipment is to be placed on the site of the development, to ensure that pedestrian and vehicular access in public places is not restricted and to prevent damage to the road reserve. The storage of building materials on City of Newcastle reserves, including the road reserve, is not permitted.

40. Any alteration to natural surface levels on the site is to be undertaken in such a manner as to ensure that there is no increase in surface water runoff to adjoining properties or that runoff is impounded on adjoining properties, as a result of the development.

41. Construction/demolition work that generates noise that is audible at residential premises is to be restricted to the following times:

- Monday to Friday, 7:00 am to 6:00 pm and
- Saturday, 8:00 am to 1:00 pm.

No noise from construction/demolition work is to be generated on Sundays or public holidays.

42. City of Newcastle’s ‘Prevent Pollution’ sign is to be erected and maintained in a conspicuous location on or adjacent to the property boundary, so it is clearly visible to the public, or at other locations on the site as otherwise directed by the City of Newcastle, for the duration of demolition and construction work.
The sign can be obtained by presenting your development application receipt at City of Newcastle’s Customer Enquiry Centre, Wallsend Library or the Master Builders Association Newcastle.

43. Erosion and sediment control measures are to be implemented prior to the commencement of works and maintained during the period of demolition and/or construction in accordance with the requirements of Managing Urban Stormwater: Soils and Construction 4th Edition - Vol. 1 (the ‘Blue Book’) published by Landcom, 2004. Controls are not to be removed until the site is stable with all bare areas supporting an established vegetative cover.

44. Where the proposed development involves the destruction or disturbance of any survey monuments, those monuments affected are to be relocated, at no cost to the City of Newcastle, by a Surveyor registered under the Surveying and Spatial Information Act 2002.

45. All public trees that are required to be retained are to be protected in accordance with the City of Newcastle Urban Forest Technical Manual, Part B Public Trees.

The tree protection fencing is to remain in place and be maintained until all works have been completed, with no waste materials, washouts, equipment or machinery to be stored within the fenced area.

46. Any demolition/waste building materials that are not suitable for recycling are to be disposed of at City of Newcastle’s Summerhill Waste Management Facility or other approved site.

47. If construction / demolition work is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the need to enclose a public place, a hoarding or fence is to be erected between the work site and the public place. If necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place. Any such hoarding, fence or awning is to be removed when the work has been completed.

48. An application is to be made to and approved by the City of Newcastle for the erection of a hoarding or part closure of the footway prior to construction being commenced. Such overhead structure or protective fence is to comply with the Work Health and Safety Act 2011, Work Health and Safety Regulation 2011 and any relevant approved industry code of practice. Notice of intention of commencement is to be given to SafeWork NSW.

49. The work site is to be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place.

50. All building work is to be carried out in accordance with the provisions of the National Construction Code.

51. On-site car parking accommodation is to be provided for a minimum of 6 vehicles, 2 motorbikes, and 21 bicycles and such being set out generally in accordance with the details indicated on the submitted plans except as otherwise provided by the conditions of consent.

52. All parking and loading bays are to be permanently marked out on the pavement surface, with loading bays and visitor parking facilities being clearly indicated by signs.

53. The proposed customer/staff parking bays are to be permanently marked out on the pavement surface and being clearly indicated by means of signs and/or pavement markings.
54. The vehicular entrance and exit driveways and the direction of traffic movement within the site are to be clearly indicated by means of reflectorised signs and pavement markings.

55. Prior to the commencement of work, a 3.0m wide all-weather vehicle access is to be provided from the kerb and gutter to the building under construction, to reduce the potential for soil erosion. Sand or soil is not to be stockpiled on the all-weather vehicle access.

56. All necessary measures are to be undertaken to control dust pollution from the site. These measures are to include, but are not limited to:
   a) Restricting topsoil removal;
   b) Regularly and lightly watering dust prone areas (note: prevent excess watering as it can cause damage and erosion);
   c) Alter or cease construction work during periods of high wind; and erect green or black shadecloth mesh or similar products 1.8m high around the perimeter of the site and around every level of the building under construction.

57. All external items of air conditioning plant are to be screened or positioned in such a manner as to not detract from the visual presentation of the building.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE, A SUBDIVISION CERTIFICATE OR A STRATA CERTIFICATE

58. Any redundant existing vehicular crossing is to be removed at no cost to the City of Newcastle. The road reserve and kerb is to be restored to the City of Newcastle’s satisfaction. Works are to be completed prior to the issuing of an Occupation Certificate for the proposed development.

59. The water management measures as indicated on the submitted plans and Statement of Environmental Effects and/or as modified under the terms of this consent are to be implemented and the nominated fixtures and appliances are to be installed and operational prior to issue of an Occupation Certificate.

60. Acoustic treatment is to be implemented in accordance with the recommendations set out in the report prepared by RCA Australia, dated 19 February 2020. Written final certification verifying that the recommended acoustic treatment has been implemented in accordance with the requirements of the above report is to be submitted to the Principal Certifier and the City of Newcastle prior to the issue of an Occupation Certificate.

Note: The acoustic consultant may need to be involved during the construction process, in order to ensure that final certification is achieved.

61. Prior to issue of an Occupation Certificate, the food business must notify the relevant enforcement agencies, under the Food Act 2003 and (for licensed food businesses) under the Food Regulation 2010. Notification is to be provided to the city of Newcastle and the NSW Food Authority.

Note: To arrange notification of the food business with the City of Newcastle, go to www.newcastle.gov.au <http://www.newcastle.gov.au> and download a copy of the ‘Council Food Business Notification Form’ or contact City of Newcastle’s Environmental Health Services on (02) 4974 2525. To notify with the NSW Food Authority go to www.foodnotify.nsw.gov.au <http://www.foodnotify.nsw.gov.au> and follow the instructions.
62. Engage an appropriately qualified consultant to install and set out the ongoing operating requirements of a noise limiting device to meet the noise levels specified in the Operational Noise Assessment prepared by RCA Australia dated 19 February 2020. Written certification confirming this has been implemented is to be submitted to Council prior to issuing an Occupation Certificate.

63. All public footways, footpaving, kerbs, gutters and road pavement damaged during the works are to be immediately repaired following the damage, to a condition that provides for safe use by pedestrians and vehicles. Full restoration of the damage is to be carried out to City of Newcastle’s satisfaction prior to the completion of demolition work or prior to the issue of any Occupation Certificate in respect of development involving building work.

64. All works within the road reserve required by this consent are to be completed prior to the issue of an Occupation Certificate.

65. A copy of the stormwater drainage design plans approved with the Construction Certificate with 'work as executed' levels indicated, are to be submitted to the Principal Certifier and to the City of Newcastle prior to the issue of an Occupation Certificate. The plans are to be prepared by a Practising Professional Engineer or Registered Surveyor experienced in the design of stormwater drainage systems.

66. A Landscape Practical Completion Report is to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate. The report is to verify that all landscape works have been carried out in accordance with the comprehensive landscape design plan and specifications that were required to be included in documentation for a Construction Certificate application and is to verify that an effective maintenance program has been commenced.

67. The premises are to be identified by the provision of house numbers on the building exterior and mailbox such that they are clearly visible from the road frontage.

   a) The minimum numeral height is to be 75mm.

CONDITIONS TO BE SATISFIED DURING THE OPERATION AND USE THE DEVELOPMENT

68. The Plan of Management shall be implemented at all times. If the plan of management is required to be amended due to any incidences involving the NSW Police, a copy of the amended Plan to be supplied to Council.

69. The maximum number of persons permitted in the premises (inclusive of the covered outdoor area) until 10:00pm is to be:

   Monday to Thursday – 200 persons maximum
   Friday to Sunday – 297 persons maximum

The outdoor area is restricted to a maximum number of 150 persons. After 10:00pm the maximum number of persons permitted within the premises is 147 persons.

A sign must be displayed in a prominent position in the building stating that until 10:00pm Monday to Thursday a maximum of 200 persons are permitted in the premises (inclusive of the covered outdoor area); and Friday to Sunday a maximum of 297 persons are permitted in the premises (inclusive of the covered outdoor area). After 10:00pm the maximum number of persons permitted within the premises is 147 persons.
70. The hours of operation or trading of the brew house are to be not more than:

unless a separate application to vary the hours of operation or trading has been submitted to and approved by the City of Newcastle.

71. The use of the identified outside area is to be restricted to 11:00am to 10:00pm on any day.

72. No patrons are permitted to remain in the identified outside area after 10:00pm.

73. All musical and amplified entertainment in the identified outside area is to cease by 10:00pm on any day.

74. No live musical entertainment being conducted at the premises unless a separate application and acoustic assessment prepared by a qualified acoustic consultant is submitted and approved by Council.

75. Vehicles are to be loaded or unloaded standing wholly within the existing building at 20 Merewether Street and in the service/delivery bay designated on the submitted plans or as otherwise provided in accordance with the conditions of this consent. Under no circumstances are vehicles to be loaded or unloaded at the kerbside, across the public footpath or in a manner which obstructs vehicular access to the site. The service/delivery bay to be used for staff parking, as designated on the submitted plans, outside of the delivery hours i.e. after 5pm midweek, after 2pm Saturday and all-day Sunday.

76. Convex safety mirrors are to be installed on both sides of the roller door within the property boundary to improve visibility.

77. The floors of the production area being suitably bunded across the external door openings to prevent the escape of spilt liquids.
78. The venue must maintain a closed-circuit television (CCTV) system on the premise in accordance with the following requirements:

(a) the system must record continuously from opening time until one hour after the premises is required to close (or, in the case of a premises that is not required to cease trading, continuously at all times),
(b) recordings must be in digital format and at a minimum of six (6) frames per second,
(c) any recorded image must specify the time and date of the recorded image,
(d) the system’s cameras must cover the following areas:
   (i) all entry and exit points on the premises,
   (ii) the footpath immediately adjacent to the premises, and
   (iii) all publicly accessible areas (other than toilets) within the premises.

The venue must also:

(a) keep all recordings made by the CCTV system for at least 30 days,
(b) ensure that the CCTV system is accessible at all times the system is required to operate pursuant to clause 1(a), by at least one person able to access and fully operate the system, including downloading and producing recordings of CCTV footage, and
(c) provide any recordings made by the system to a police officer or Liquor and Gaming NSW inspector within 24 hours of any request by the police officer or Liquor and Gaming NSW inspector to provide such recordings.

79. All waste products being stored in air-tight containers which are to be kept sealed at all times except when necessary to add or remove material.

80. Waste management (recyclable and non-recyclable) is to be collected from the refuse storage areas, as identified on the approved plans, serviced and returned immediately to the refuse storage areas. Under no circumstances are garbage bins to be left at the kerb for collection.

81. The flood refuge areas are to be maintained clear of obstruction and stored materials and be used exclusively for purposes designated on the submitted plans.

82. Waste collection (general and recyclable) is to be undertaken from the bin storage area, as identified on the approved plans, serviced from the Merewether Street Service Road and returned directly to the bin storage area. Under no circumstances are garbage bins to be presented to the Merewether Street Service Road earlier than the scheduled time of kerbside collection or remain at kerbside after collection.

83. Within 6 months of operation the noise emissions from the facility are to be monitored and assessed with a report to be prepared and submitted to Council confirming the recommended acoustic treatments have been implemented in accordance with the requirements of Operational Nosie Assessment prepared by RCA Australia dated 19 February 2020.

84. Any forklift operation on the premises being restricted to between 7am to 6pm.

85. The use and occupation of the premises, including all plant and equipment installed thereon, is not to give rise to any offensive odour, as defined under the Protection of the Environment Operations Act 1997, as amended.

Should Council consider offensive odour has emanated from the premises, the owner/occupier of the premises will be required to submit an odour assessment prepared by a suitably qualified consultant recommending appropriate odour control measures necessary to ensure future compliance with this condition and will be required to implement such measures within a nominated period. Furthermore, written certification from the said consultant confirming the recommended odour control
measures have been satisfactorily implemented will be required to be submitted to Council prior to the expiration of the nominated period.

86. The use and occupation of the premises, including all plant and equipment installed thereon, is not to give rise to any offensive noise, as defined under the Protection of the Environment Operations Act 1997.

Should City of Newcastle consider that offensive noise has emanated from the premises, the owner/occupier of the premises will be required to submit an acoustic assessment prepared by a suitably qualified acoustical consultant recommending acoustic measures necessary to ensure future compliance with this condition and will be required to implement such measures within a nominated period. Furthermore, written certification from the said consultant, verifying that the recommended acoustic measures have been satisfactorily implemented, will be required to be submitted to City of Newcastle prior to the expiration of the nominated period.

87. No goods or advertising signs are to be displayed or allowed to stand on the public footpath or street.

88. The driveway crossing, parking areas and stormwater management system are to be properly maintained for the life of the development.

89. The use and occupation of the premises is not to give rise to the emission of any 'air impurity' as defined under the Protection of the Environment Operations Act 1997, that interferes unreasonably with the amenity of neighbouring premises and/or other sensitive receivers.

Should City of Newcastle consider that unreasonable levels of air impurities have been emitted from the premises, the owner/occupier will be required to engage a suitably qualified consultant to recommend measures to control emission of air impurities to an acceptable level and such measures will be required to be implemented within a nominated time period. Furthermore, written certification from the suitably qualified consultant will be required to be submitted to City of Newcastle, confirming that air impurity emissions from the premises do not interfere unreasonably with the amenity of neighbouring premises and/or other sensitive receptors, before the expiration of the nominated period.

90. Proposed parking areas, vehicle bays, driveways and turning areas are to be maintained clear of obstruction and be used exclusively for purposes of car parking, and vehicle access, respectively. Under no circumstances are such areas to be used for the storage of goods or waste materials.

91. Any liquid wastes from the premises, other than stormwater are to be either discharged to the sewers of the Hunter Water Corporation in accordance with an approved Trade Waste Agreement or collected and disposed of by a licensed waste transport contractor in accordance with the Department of Environment and Climate Change ‘Waste Classification Guidelines Part 1: Classifying Waste’.

ADVISORY MATTERS

- For the purpose of applying the provisions of the National Construction Code for class 1, 2, 3, 4, 9a (health care) and 9c (aged care) buildings, it is advised that the proposed building is located in a Flood Hazard Area and the:
  
  a) Defined Flood Level (DFL) is 5.80m Australian Height Datum (AHD)
  b) Flood Hazard Level is 6.30m AHD (Freeboard is 500mm above DFL)
  c) Maximum Flow Velocity of floodwaters for the Defined Flood Event is 0.20m/s

- Any proposed business identification sign or advertising sign is to be designed in
accordance with the provisions of Newcastle Development Control Plan 2012 and be the subject of a separate Development Application that is to be approved prior to the sign being erected or placed in position, except when such signage meets 'exempt development' criteria.

• A copy of the final Fire Safety Certificate (together with a copy of the current fire safety schedule) is to be given to the Commissioner of NSW Fire Brigades and a further copy of the Certificate (together with a copy of the current fire safety schedule) is to be prominently displayed in the building.

• An annual Fire Safety Statement in the form described in Clause 175 of the Environmental Planning and Assessment Regulation 2000 is to be submitted to the City of Newcastle and a copy (together with a copy of the current fire safety schedule) is to be given to the Commissioner of New South Wales Fire Brigades. A further copy of the Statement (together with a copy of the current fire safety schedule) is to be prominently displayed in the building.

• It is recommended that, prior to commencement of work, the free national community service 'Dial before you Dig' be contacted on 1100 or by fax on 1200 652 077 regarding the location of underground services in order to prevent injury, personal liability and even death. Inquiries should provide the property details and the nearest cross street/road.

• Any necessary alterations to public utility installations are to be at the developer/demolisher’s expense and to the requirements of the City of Newcastle and any other relevant authorities. City of Newcastle and other service authorities should be contacted for specific requirements prior to the commencement of any works.

• It is an offence under the provisions of the Protection of the Environment Operations Act 1997 to act in a manner causing, or likely to cause, harm to the environment. Anyone allowing material to enter a waterway or leaving material where it can be washed off-site may be subject to a penalty infringement notice (i.e. ‘on-the-spot fine’) or prosecution.

• Failure to comply with the conditions of consent constitutes a breach of the Environmental Planning and Assessment Act 1979, which may be subject to a penalty infringement notice (i.e. ‘on-the-spot fine’) or prosecution.

• Prior to commencing any building works, the following provisions of Part 6 of the Environmental Planning and Assessment Act 1979 are to be complied with:
  a) A Construction Certificate is to be obtained; and
  b) A Principal Certifier is to be appointed for the building works and the City of Newcastle is to be notified of the appointment; and
  c) The City of Newcastle is to be given at least two days’ notice of the date intended for commencement of building works.

• A Construction Certificate application for this project is to include a list of fire safety measures proposed to be installed in the building and/or on the land and include a separate list of any fire safety measures that already exist at the premises. The lists are to describe the extent, capability and basis of design of each of the measures.

• Prior to the occupation or use of a new building, or occupation or use of an altered portion of, or an extension to a building, an Occupation Certificate is to be obtained from the Principal Certifier appointed for the proposed development. An application for an Occupation Certificate is to contain the information set out in Clause 149 of the Environmental Planning and Assessment Regulation 2000.
REASONS FOR THE DETERMINATION & CONSIDERATION OF COMMUNITY VIEWS
The determination decision was reached for the following reasons:

- The proposed development, subject to the recommended conditions, is consistent with the objectives of the applicable environmental planning instruments, being *Newcastle Local Environmental Plan 2012* (NLEP) and applicable State Environmental Planning Policies.
- The proposed development is, subject to the recommended conditions, consistent with the objectives of the Newcastle Development Control Plan 2012 (NDCP).
- The proposed development is considered to be of an appropriate scale and form for the site and the character of the locality.
- The proposed development has appropriate management and mitigation of impacts through conditions of consent.
- The proposed development, subject to the recommended conditions, will not result in unacceptable adverse impacts upon the natural or built environments.
- The proposed development is a suitable and planned use of the site and its approval is within the public interest.

REASONS WHY THE CONDITIONS HAVE BEEN IMPOSED
The following conditions are applied to:

- Confirm and clarify the terms of Council’s determination;
- Identify modifications and additional requirements that will result in improved compliance, development and environmental outcomes;
- Prevent, minimise, and/or offset adverse environmental impacts including economic and social impacts;
- Set standards and measures for acceptable environmental performance; and
- Provide for the ongoing management of the development.
SCHEDULE 3

SUBSIDENCE ADVISORY NSW GENERAL TERMS OF APPROVAL

GENERAL

1. The development being undertaken strictly in accordance with the details set out on the application form, any information submitted with the application and the plans submitted, as amended or as modified by the conditions of this approval. Note: Any proposal to modify the terms or conditions of this approval, whilst still maintaining substantially the same development to that approved, will require the submission of a formal application for consideration by Subsidence Advisory NSW. If amendments to the design result in the development not remaining substantially the same as that approved by this approval, a new application must be submitted to Subsidence Advisory NSW.

2. This approval expires 5 years after the date the approval was granted if construction work has not physically commenced.

POST CONSTRUCTION

3. Upon completion of construction, works-as-executed certification by a qualified engineer is to be forwarded to Subsidence Advisory NSW confirming that construction was in accordance with the plans approved by Subsidence Advisory NSW.

ITEM-29 Attachment D: General Terms of Approval - Subsidence Advisory NSW
Dear Benjamin

RE PROPOSED ALTERATIONS/ADDITIONS TO WAREHOUSE AND CONVERSION INTO A MICROBREWERY AT 18-20 MEREWETHER STREET MEREWETHER; LOT 4 DP 218920 & LOT 10 SEC 3 DP 111239; TBA19-07057

NOTICE OF DETERMINATION

I refer to the application detailed above. Subsidence Advisory NSW has determined to grant approval under section 22 of the Coal Mine Subsidence Compensation Act 2017.

Approval has been granted, subject to the conditions set out in the attached determination under Schedule 2. The stamped approved plans are attached.

Once relevant documentation to meet the conditions in Schedule 2 is available, please email through to SA-Risk@customerservice.nsw.gov.au quoting reference TBA19-07057.

Should you have any questions about the determination, I can be contacted by phone on 02 4908 4300 or via email at SA-RiskEng@customerservice.nsw.gov.au.

Yours faithfully,

Melanie Fityus
Senior Risk Engineer

20 December 2019
DETERMINATION

Issued in accordance with section 22 of the *Coal Mine Subsidence Compensation Act 2017*

As delegate for Subsidence Advisory NSW under delegation executed 20 December 2019 approval is for the development described in Schedule 1, subject to the conditions attached in Schedule 2.

Determination Date: 20 December 2019

Approval to Lapse on: 20 December 2024

The conditions of approval are imposed for the following reasons:

   a) To confirm and clarify the terms of Subsidence Advisory NSW approval.
   b) To minimise the risk of damage to surface development from mine subsidence.

Melanie Fityus
Senior Risk Engineer

Proposal: ALTERATIONS/ADDITIONS TO WAREHOUSE AND
CONVERSION INTO A MICROBREWERY
Mine Subsidence District: NEWCASTLE
SCHEDULE 2
CONDITIONS OF APPROVAL

GENERAL

Plans, Standards and Guidelines

1. The development being undertaken strictly in accordance with the details set out on the application form, any information submitted with the application and the plans submitted, as amended or as modified by the conditions of this approval.

   Note: Any proposal to modify the terms or conditions of this approval, whilst still maintaining substantially the same development to that approved, will require the submission of a formal application for consideration by Subsidence Advisory NSW. If amendments to the design result in the development not remaining substantially the same as that approved by this approval, a new application must be submitted to Subsidence Advisory NSW.

2. This approval expires 5 years after the date the approval was granted if construction work has not physically commenced.

POST CONSTRUCTION

3. Upon completion of construction, works-as-executed certification by a qualified engineer is to be forwarded to Subsidence Advisory NSW confirming that construction was in accordance with the plans approved by Subsidence Advisory NSW.

Dispute Resolution

If you are dissatisfied with the determination of this application, an appeal may be formally submitted with the Chief Executive Officer for an independent internal review. The application must be made in writing and must provide reasons why the determination should be changed.
