

Cocoon by Aura Parker

Reviewed by Erin Fitzpatrick (6 Years Old from Maryville, NSW.)

This story is about Dawn. She starts out as a caterpillar and spends a lot of time in her cocoon before she gets out to go as a moth.

This story reminded me a bit of the ***Very Hungry Caterpillar*** by Eric Carle.

My favourite part was when she got to see her friends again after a long stay in her cocoon. The best picture in the book was when Dawn first comes out of the cocoon and she stretches her wings and sees her friends.

I also really liked seeing Alice (who reads the story) when she spreads her wings out and flies away.
