**How to be aware and prepare.**  
**By Polly Marsden**

A practical and reassuring guide to bushfire for kids so they can be prepared, not scared. This book is written like as a story, but still filled with facts. Its beautiful illustrations and simple text make it so easy to read. A great way for kids to learn what to do and how to do it and cope with any stress or fears associated with bushfires. I highly recommend this book for all parents and kids to read before our next bushfire season starts.

Current web address for Bushfire plans, fire weather services and wildlife care are included at the back of the book.

An excellent nonfiction picture book for ages 4+ years
